

**Your copy of
Grow Curious
is coming soon**

**As you work on your
garden, your garden
works on you.**

This beautifully illustrated journal is a call to step away from your daily chores and into your green oasis—whether a sprawling garden or a collection of potted plants. Through the seasons, thoughtful prompts inspire self-reflection and creative activities invite you to explore the wonders of the natural world. After all, there is so much to learn from our gardens if we just take the time to look.
